

THE DEAR HUNTER

ACT II: THE MEANING OF, AND ALL THINGS REGARDING MS. LEADING (TRIPLE CROWN)

Lit nerds take note: When *Act II* hits stores this May, the nearly 80-minute sequel to 2006's *Act I* EP will include a book that will, presumably, unlock more of the Dear Hunter's story—that of the songs' central character, not the band, that is.

Expect more of Casey Crescenzo's complex, atmospheric soundscapes behind an even more complex story, woven together with urgent vocals that propel the Dear Hunter through his journey.
