SECONDHAND SERENADE

A Twist in My Story

Glassnote/East West Records

secondhandserenade.net

Given how many bands are on MySpace, it's quite an honor for Secondhand Serenade to achieve the No. 1 unsigned band on the site. While most emo bands are on my nerves these days, Secondhand Serenade is really good. Singer John Vesely's songs are really touching and sweet, making for the perfect mix tape for your special someone. Hold your lighters in the air for hits like "Like a Knife," "Maybe" and "Suppose." - JERNIE LONG
