INTRODUCING

BROADWAY CALLS

Green Day love 'em, so will you

Green Day's Billie Joe Armstrong knows a good band when he hears one. That's exactly why, after being bowled over by the power pop sounds of drummer Josh Baird and Oregon band Broadway Calls on their second album, he promptly signed them to his Adeline Records label and re-

released the longplayer to much acclaim.

With a long, hot summer spent on the US Warped Tour, this infectious Oregon crew's live show should be perfectly honed for imminent UK dates. **R** (CB)
