STREET SWEEPER SOCIAL CLUB

Street Sweeper Social Club

(EPIC)

7.1

Some may think that Street Sweeper Social Club is completely pedestrian due to their self-titled release sounding much like a lost Rage Against the Machine record. Tom Morello and Boots Riley have managed to create an album that may not be entirely innovative, given their roots, but it kicks some major musical ass nonetheless. Morello's guitar playing is just as raw and intricate as his good old Rage days and Riley's vocal style is both rowdy and velvety at the same time. It's this combination that makes the album incredibly versatile. **FFO: Rage Against the Machine, The Coup, Red Hot Chili Peppers**
