## PEOPLE ARE TALKING ABOUT **music**

### THE LONELY FOREST

ARROWS [TRANS]

This foursome proves that music doesn't need to be mopey, dour, or dark to be "alt." *Arrows* is straight-ahead, energetic guitar rock. Lead singer John Van Deusen sings plaintively over propulsive (and sometimes simply bouncy) riffs that would be the perfect soundtrack for your next road trip. The songs are meant to be played with your windows down, stereo up.

**FOR FANS OF: Jimmy Eat World, Foo Fighters.**
