"Singing 'Where the Wild Roses Grow' with the one and only Nick Cave onstage in London."

"Compulsive doodler"

"Bathing in sparkle at video shoot in Rome"

COME INTO HER WORLD

IT'S NO SECRET KYLIE MINOGUE HAS BEEN BUSY IN THE STUDIO. THE GLOBAL ICON TAKES A BREAK FROM RECORDING WITH HER CAST OF COOL COLLABORATORS TO NARRATE HER LIFE BEHIND THE SCENES

International pop star. Chart-topper. Television host. Humanitarian. Breast cancer survivor. Actress. Officer of the Order of the British Empire. The original goddess of pop has done it all, earning her a permanent seat in the global music Hall of Fame. But that doesn't mean she has plans to quit anytime soon. This spring, the irrepressible icon is back with her twelfth studio album and a new season as a coach on the British edition of *The Voice*. While working with the likes of Pharrell Williams, Ariel Rechtshaid, Cutfather, and MNEK, Minogue traveled all over the globe, from New York to L.A. to London, to record. The first single, "Into The Blue," from her forthcoming album, *Kiss Me Once* (available on March 18 from Warner Bros. Records/ Parlophone) has been heralded as a "euphoric return back to the dance floor." If it's Kylie calling, there's no way we won't be there. **WILLIAM DEFIBAUGH**
