June 6, 2016 — (Burbank, CA) — [Built to Spill](#) have announced yet another round of East coast and mid-western region tour dates for this September and October. At present, BTS are working on new material and will be touring and performing as a trio consisting of **Doug Martsch** (guitars, vocals), **Steve Gere** (drums) and **Jason Albertini** (bass). All confirmed tour dates are listed below.

**Built to Spill** have been touring in support of their current album *Untethered Moon*, which was released last April by Warner Bros. Records. Yet again, **Doug Martsch & company** have created a melodically rich song cycle that weaves memorable guitar textures with thoughtfully crafted lyrical passages open to the listener's own interpretation. The press embraced the album with open arms and ears:

"Built To Spill are the AC/DC of indie rock. The album consistently is a testament to Martsche's perfectionism – and for that, we salute him." – **Rolling Stone**

"*Untethered Moon* is a record flush with blustery guitar passages, hooks and heart...chugging ramblers with psych moves and serpentine melodies around every corner...towering shards of incendiary guitar." – **Associated Press**

"Assured songwriting and richly rendered freakouts." – **Alternative Press**

**Untethered Moon** was produced by **Martsch** and **Sam Coomes** (from the band [Quasi](#)) and recorded entirely with Martsch playing all guitars along with new band members, **Steve Gere** (drums) and **Jason Albertini** (bass).
