Aug 18, 2016 - (Burbank, CA) - [Gary Clark Jr.](#) has written an original new song, "**Take Me Down**," which will be featured in the upcoming and highly anticipated film [Deepwater Horizon](#) from Lionsgate's Summit Entertainment label, as well as on the movie's original soundtrack. **Deepwater Horizon Original Motion Picture Soundtrack - Music by Steve Jablonsky Featuring an Original Song by Gary Clark Jr.**, also features an original stirring score by [Steve Jablonsky](#) (The *Transformers* franchise, *Lone Survivor*) and will be released by Warner Bros. Records on September 23<sup>rd</sup>.

**Deepwater Horizon**, which hits theaters on September 30<sup>th</sup>, is directed by [Peter Berg](#) (*Lone Survivor*) and stars Mark Wahlberg, Kurt Russell, John Malkovich, Gina Rodriguez, Dylan O'Brien, and Kate Hudson. It tells the story of how on April 20, 2010, one of the

world's largest manmade disasters occurred on the Deepwater Horizon in the Gulf of Mexico. The story honors the brave men and women whose heroism would save many on board, and change everyone's lives forever.

**"Take Me Down"** displays the rootsier, more intimate side of Clark's singer/songwriter oeuvre. Clark continues to broaden his musical pallet with this achingly beautiful and melodic track. **"Take Me Down"** is a departure from his usual blistering blues, rock & soul compositions on albums ***Blak and Blu*** and ***The Story of Sonny Boy Slim***. **"Take Me Down"** was produced by Clark and Mark Corben exclusively for ***Deepwater Horizon***. The track features Clark on all vocals, acoustic guitar, harmonica and cinematic electric slide guitar. Clark's touring band provides a slinky, New Orleans-style second-line rhythm that underscores a deeper authenticity to this real-life global event that took the lives of 11 men.

**"Take Me Down"** will also be released as a digital single beginning September 9<sup>th</sup> from all participating digital retailers. Click [here](#) to order.

**Steve Jablonsky** has composed the music for many of Hollywood's most successful films including *Transformers*, *Transformers: Revenge of the Fallen*, *Transformers: Dark of the Moon* and *Transformers: Age of Extinction*. He has worked on multiple projects with director Peter Berg including *Lone Survivor* and *Battleship*. **Jablonsky's** other film credits include *Pain & Gain*, *The Island*, *A Nightmare on Elm Street*, *The Last Witch Hunter*, *Ender's Game*, *Gangster Squad*, and most recent *Keanu* and *Teenage Mutant Ninja Turtles: Out of the Shadows*.

On Oct 6<sup>th</sup>, **Clark** and company will perform the song on [Jimmy Kimmel Live](#). Tune into ABC stations at 11:35pm EST / PST, and 10:35pm CT.
