Born and raised in Los Angeles, Ludwig picked up the trumpet at age 17 and immediately began making his mark on the city's indie, EDM, and pop worlds. While still an undergraduate studying music at the California Institute of the Arts, he was hired to be the featured trumpeter in the indie-pop group Capital Cities in 2011. During his time with Capital Cities he played on their platinum debut album *In a Tidal Wave of Mystery* and opened for Katy Perry on her Prismatic World Tour. Ludwig's musical agility allows him to captivate audiences with a four-piece band or as a DJ, where his unique sets include live trumpet and other instruments, as well as his original style remixes, which he has dubbed "Trumpet Edits."
