Hot off the presses: the full version of Grammy nominated artist Andra Day's reimagined version of "What the World Needs Now is Love" is now available for purchase via [iTunes](#) and Spotify.

You first heard Andra's rendition of the classic Hal David/Burt Bacharach song at the Oscars this past Sunday night as part of Hyatt Hotels' "[For a World of Understanding](#)" spot, one of the show's most buzzed about ads which touched on the importance of understanding. In case you missed it, you can see the :30 spot which aired on Sunday night [here](#) and the long-form :60 version [here](#). You can check out behind-the-scenes footage of Andra recording the song on-set at: <http://hyattworldofunderstanding.com>.

It's a beautiful song with a timeless message, and since the :30 and :60 spots were so well received, I thought you might be interested in sharing the full version with your readers.
