[PARADOX](#), the film, written and directed by Daryl Hannah features Neil Young + Promise of the Real. A fantasy, a loud poem and a whimsical tale of music and love, PARADOX is a sweetly idiosyncratic personal expression. Sometime in the future-past, a band of outlaws hides out high in the Mountains. The "Man in the Black Hat" (Neil Young), the "Particle Kid" (Micah Nelson) and "Jail Time" (Lukas Nelson) and a band of cowboys and outlaws pass the days digging for treasure while they wait for the full moon to bring its magic, the music and let the spirits fly.

PARADOX will world premiere at next week's [SXSW Film Festival](#) on March 15, will launch on Netflix on March 23 and will play in a limited theatrical release.

Songs written by Neil Young unless otherwise noted.
